EDUCATION

FOSTER SCHOOL OF BUSINESS, UNIVERSITY OF WASHINGTON, Seattle, WA — June 2028
Candidate for Master of Business Administration (MBA)
- Recipient of Dean's Merit Scholarship and NRD tuition benefits

NATIONAL INSTITUTE OF TECHNOLOGY KARNATAKA (NITK), Surathkal, India — May 2021
Bachelor of Technology (B.Tech), Metallurgical and Materials Engineering

EXPERIENCE

SAARTHI MANOSETU WELLNESS, Jodhpur, India — April 2025 - Present
End-to-end mental health screening-to-resolution platform for enterprise and educational ecosystems
Co-founder and Technical Product Lead
Owned platform development and translated consumer insights into cost efficient enterprise deployment
- Co-founded a digital wellness venture; designed a closed-loop platform bridging early diagnostic screening with end-to-end care resolutions using a 4,000+ user validation dataset; on track to reach 15 schools and 12,000 students in 2026
- Orchestrated phased market entry strategy using RICE prioritization; launched school web MVP that reduced time-to-market from 9 to 3 months while managing an 8-portal, 3-application portfolio under $100/month
- Deployed automated 24 hr PII purges and 10 security validation checks across 54 database models, reducing production rollout risks by 60%

STANDARD CHARTERED GBS, Bangalore, India — July 2021 - Aug 2026
Global financial services firm; enterprise product platform for banking governance and operations;
Manager – Development *(Sept 2025 – Aug 2026)*
Led product delivery, platform modernization, cross-functional engineering teams for banking governance systems
- Spearheaded a 9-member team migrating 22 critical banking workflows from legacy to open-source; optimized trade-offs to collapse an 800-day roadmap to 4 months, securing $1.5M in savings
- Generated $50K USD in net-new revenue by incubating an internal data-monetization module; externalized proprietary product catalog assets via a net-new "Payoff" capability
- Directed secure platform cutover and data transition for 1,000+ high-security asset portfolios across isolated networks with zero data loss; eliminated 40% of redundant data flaws to cut storage costs by 30%

Senior Software Developer *(April 2024 – Sept 2025)*
Owned feature development, platform enhancements, release management, and production support
- Discovered and launched a net-new Amendment Workflow Module to address unmapped requirements managing 800–1,000 updates annually; collapsed amendment cycles from 6 months to 3 weeks
- Automated enterprise governance pipelines and re-engineered platform modules, reducing manual cross-team handoffs by 80% and improving operational efficiency by 40%
- Commanded emergency incident response framework for an unscheduled P1 production rollout failure; coordinated approvals under intense pressure to restore system health with zero operational downtime

Software Developer *(July 2021 – April 2024)*
Developed enterprise workflow applications, UI features, testing, and production releases for banking platforms
- Co-designed intuitive workflow interface for the EProduct 2.0 governance platform; minimized cognitive overhead to secure an 85% enterprise adoption rate and reduce operational delays
- Led UAT and release QA; designed parameters slashing post-deployment bugs by 80%

SKILLS AND ACTIVITIES

- **Technical Stack:** Product Strategy, User Research, Go-To-Market (GTM) Strategy , RICE Prioritization , BRD/PRD Authoring, Wireframing, Python, Java, JavaScript/TypeScript, React.js, React Native, NestJS, Spring Boot, GraphQL
- **Leadership**:Advised early stage startups including OxyHeal; facilitated founder, alumni, and VC connects for fundraising
- **Interests:** Member, Drama Club, NITK; conceptualized, wrote, and directed theatrical productions for ~3000 attendees
